

# Vision Highlights

## Open Enrollment

**Nov. 16 – 30, 2009**

Online only — 100% paperless 

Periodic eye exams and appropriate corrective lenses are important for maintaining good vision. If you enroll in one of the Anthem medical options, you are automatically enrolled in the vision option administered by Vision Service Plan (VSP). The plan covers the cost of eye exams, lenses and frames. There are no ID cards required. Just tell your VSP doctor that you are a VSP member, and the doctor will handle the rest.

### 2010 changes

For 2010, the plan is changing to the VSP "Choice" network (instead of the VSP "Signature" network used in 2009). The new vision network

within VSP offers cost savings. To receive the most value from your vision benefits, you should use a participating VSP "Choice" network doctor. With more than 92% of VSP "Signature" network doctors participating in the VSP "Choice" network, it is likely that your current VSP doctor participates in the VSP "Choice" network, too.

Here are a few easy steps to ensure a seamless transition to the VSP "Choice" network.

- Go to [vsp.com/choice](http://vsp.com/choice) to confirm your doctor's participation
- After Jan. 1, 2010, register at [vsp.com](http://vsp.com) to view your benefits, doctor visit savings, and other helpful information about how to keep your eyes healthy.
